

**University of Arkansas
East Arkansas Community College
Certificate of Proficiency in Industrial Systems Technology**

By choosing to pursue Industrial Systems Technology, you will be able to solve most of the technical and industrial problems experienced by today's industries. UAEACC's IET program will give you the background and skills necessary to troubleshoot, repair and maintain electrical, mechanical, hydraulic and pneumatic equipment used in a manufacturing or facilities environment.

I. Required Courses	Credit Hours	Semester	Year	Grade
IET 2503 Fundamentals of Mechanics II	3			
IET 2602 Industrial Electricity	2			
IET 2702 Industrial Wiring Methods	2			
IET 2801 Mechanics	1			
IET 2302 Applications Lab II	2			
Total Certificate Hours	10
